Guidance on Rapid Antigen Test Kits for COVID-19

Please Note:

- Below listed kits are validated with the mentioned batch number only. Responsibility for batch to batch consistency does not lie with ICMR.
- Minimum acceptance criteria of sensitivity and specificity of Rapid Ag Test Kits:
 - Validated as a Point of Care Test (POCT) without transport to a laboratory setup-
Sensitivity: 50% and above
Specificity: 95% and above
 - Validated in a laboratory setup with samples collected in Viral Transport Medium (VTM)-
Sensitivity: 70% and above
Specificity: 99% and above
- Antigen based rapid tests which are US-FDA approved can be used directly after due marketing approval from DCGI.

TILL DATE, 25 ANTIGEN BASED RAPID TESTS KITS HAVE BEEN VALIDATED, AND THE FOLLOWING ARE FOUND TO BE SATISFACTORY

S. No	Name of company	Name of the kit	Lot no. / Batch No.	Sample used for validation
1.	SD Biosensor, South Korea / India	STANDARD Q COVID-19 Ag	E055003	Nasopharyngeal swab
2.	LabCare Diagnostics Ltd., India	COVID-19 Antigen Lateral Test Device	CVG200601 CVG200602 CVG200603	Oropharyngeal and Nasopharyngeal swabs
3.	Trivitron Healthcare Pvt. Ltd., India	BIOCARD Pro COVID-19 Rapid Ag test kit	COVPGL-001 COVPGL-002 COVPGL-003	Nasopharyngeal swab
4.	Coris Bioconcept, Belgium	*COVID-19 Ag Respi Strip	43242F2003 43512G2030 43464G2016	#Oropharyngeal swab in VTM

*Guidance for use is placed at Annexure I

List of Rapid Ag Test kits validated and not approved is placed at Annexure II

Annexure I

Guidance for use of COVID-19 Ag Respi-Strip (CorisBioConcept)

*COVID-19 Ag Respi-Strip (Coris BioConcept) involves a different methodology of testing as compared to the other two antigen testing kits approved by ICMR till now. This test cannot be performed bedside and requires a BSL-2 set-up for running the test.

Brief methodology of use of COVID-19 Ag Respi-Strip (CorisBioConcept):

1. The Nasopharyngeal and/or Oropharyngeal swab will be collected from COVID-19 suspect patient in Viral Transport Medium (VTM).
2. The collected swab in VTM will be brought to the laboratory in appropriate cold chain conditions.
3. Once the sample is brought to the laboratory, it will need to be handled in a BSL-2 level cabinet for aliquoting, putting in lysis buffer and loading the test strip.
 - Steps 1 & 2 will be performed as per the standard practice followed for collection and transport of samples for COVID-19 RT-PCR test.
 - Step 3 will need to be performed as per manufacturers' instructions given with the test kit.

Differences between COVID-19 Ag Respi-Strip (CorisBioConcept) and other antigen test kits approved by ICMR are as follows:

COVID-19 Ag Respi-Strip (Coris BioConcept)	STANDARD Q COVID-19 Ag (SD Biosensor) & COVID-19 Antigen Lateral test Device (Lab Care Diagnostics Ltd)
Cannot be employed as a point of care test	Can be employed as a point of care test
Test kit does not have a sample collection swab	Test kit has a sample collection swab
Nasopharyngeal and/or Oropharyngeal swab in VTM should be used.	STANDARD Q COVID-19 Ag kit: Only nasopharyngeal swab should be used. For COVID-19 Antigen Lateral test device: Throat/nasal/nasopharyngeal swab can be used.
Sample has to be collected using the standard swab provided with VTM. Once collected, the sample needs to be put into the VTM tube.	Sample needs to be collected using the swab provided with the kit. Once collected the swab needs to be directly put into the extraction buffer (in tube) provided in the kit which inactivates the virus. The swab needs to be stirred and squeezed (about 5 times) to extract the sample.
The collected sample needs to be transported into a BSL-2 lab in cold chain conditions	No transport to a BSL-2 lab is required as this is a point of care test.
100 µl of the VTM sample needs to be added to	The extracted sample should be shaken and 2-3 drops

the dilution buffer in a test tube provided with the kit.	to be added to the well of the lateral flow strip.
Read results in 15 mins or earlier after insertion of strip into tube containing sample and dilution buffer. The strip should be discarded after 15 minutes.	For STANDARD Q COVID-19 Ag: Results should be read between 15-30 mins. For COVID-19 Antigen Lateral test device: results should be read within 15-20 minutes.
Control line may not appear in a positive test.	Control line must appear for the test to be valid.
Storage temperature: 4-30°C	Storage temperature: 2-30°C

Annexure II

List of Rapid Ag Test kits validated, and Not Approved

S. No	Name of Company	Name of Kit	India/ Other countries	Name of the supplier
1.	Bhat Bio-Tech India, Bangalore	COVID-19 Antigen Rapid Card Test	India	Invex Health, India
2.	SD Biosensor	COVID FIA Antigen Test	South Korea / India	SD Biosensor
3.	POCT Services Pvt Ltd.	Q-Line Rapid COVID-19 Rapid Antigen Test (Revalidated)	India	POCT Services Pvt Ltd
4.	HLL Lifecare Ltd	Makesure Covid-19 Antigen Rapid Card (Revalidated)	India	HLL Lifecare Ltd
5.	Agappe Diagnostics, Kochi	AAG Q COVID-19 N-Antigen rapid test	India	Agappe Diagnostics, Kochi
6.	Formosa Biomedical Technology Corp.	Formosa One Sure SARS-COV-2 Ag rapid Test Kit	Taiwan	Intai Lifesciences LLP, India
7.	Rapigen Inc	Biocredit COVID-19 Ag	South Korea	Imperial Life Sciences, Gurgaon
8.	Camtech Diagnostics	Camtech COVID-19 rapid Antigen Test	Singapore	Althea Pharma Pvt. Ltd, Mumbai
9.	Meril Diagnostics Pvt. Ltd	Meriscreen COVID-19 Antigen detection test	India	Meril Diagnostics Pvt. Ltd
10.	Angstrom Biotech Pvt. Ltd.	COVID-19 rapid Antigen Test kit	India	Angstrom Biotech Pvt. Ltd.
11.	M/s Medsource Ozone Biomedicals Pvt Ltd.	COVID-19 Antigen Rapid Test	India	M/s Medsource Ozone Biomedicals Pvt Ltd.
12.	Aspen Laboratories Ltd.	ASPEN COVID antigen rapid test	India	Aspen Laboratories Ltd., Delhi
13.	Genuine Biosystem Private Limited	GB QUIK Covid-19 Rapid Antigen test Kit	India	Genuine Biosystem Private Limited
14.	GenBody Inc.	GenBody COVID-19 Ag rapid Test kit	South Korea	Vishat Diagnostics Pvt. Ltd, Mumbai
15.	ScheBo BioTech Netanyastr.2	ScheBo SARS-CoV-2 Antigen ELISA	Germany	GastroLab India Pvt. Ltd.
16.	Oscar Medicare Pvt. Ltd.	COVID-19 rapid Antigen Test kit	India	Oscar Medicare Pvt. Ltd.
