1. SYMPTOMS OF COVID-19

World Health
Organization

Click on me

The most common symptoms of COVID-19 are :
Fever, Dry cough, Fatigue

•Other symptoms that are less common and may affect patients :

- Loss of taste or smell
 - Nasal congestion
- Conjunctivitis (also known as red eyes)
 - Sore throat
 - Headache
- Muscle or joint pain
- Different types of skin rash
- Nausea or vomiting
 - Diarrhoea
- Chills or dizziness

•Symptoms of Severe COVID-19 disease include:

- Shortness of breath
- Loss of appetite
 - Confusion
- Persistent pain or pressure in the chest
- High temperature (above 38 °C / 100 °F)

Other less common symptoms:

- Irritability
- Confusion
- Reduced consciousness
 - Anxiety
 - Depression
- Sleep disorders

People of all ages who experience fever and/or cough associated with difficulty in breathing or shortness of breath, chest pain or pressure, loss of speech or movement should seek medical care immediately. If possible, call your health care provider, hotline or health facility first, so you can be directed to the right clinic

2. TESTING FOR COVID-19

RT PCR | RAT- Rapid Antigen | HR CT Scan

RT-PCR test is a mandatory test for any covid treatment. It automatically generates an **SRF ID** while collecting samples

RAT - Rapid Antigen Test is only an alternate for Immediate result

HR-CT Scan is usually recommended by doctors for patients with severe symptoms

BBMP TESTING CENTRES (FREE)

[Click Here](#) to find the list of free Govt Testing Centres in Bangalore - Swab Collection Centres

PRIVATE TESTING CENTRES

[Click Here](#) to find the list of service providers. Typically, most of them have walk-in and home service

HOME RT PCR TESTING

[Click Here](#) to find the list of Labs that provide Home Testing Services

CHECKLIST / IMPORTANT INFORMATION FOR TESTING

- Carry a copy of Aadhaar Card and your Mobile Phone when visiting the lab for testing
- Ensure you get the SRF ID via SMS before leaving the lab after the swab sample has been collected
 - RT-PCR test results could take up to 96 hours

3. HOME ISOLATION AND CARE

Revised Guidelines for Home Isolation by Ministry of Health & Family Welfare

[Click Here](#)

3.1 Home Isolation - Do's and Don't

If you have tested positive (+ve) for COVID-19:

DOs:

- Isolate yourself at home in a separate room. Monitor your symptoms carefully
- Inform all those who have been in contact with you
- If you feel symptoms are worsening, call your doctor and take advice
- Monitor your SPO2 levels with a pulse oximeter and stay in touch with a doctor for advice if oxygen level begins dropping below 95 percent
 - Lie down in proning position. Breathing is easier and lungs work more efficiently when you lie down on your stomach
- Get ample rest, eat nutritious food, stay hydrated
- Practice regular COVID-appropriate behaviour :
 - Mask on nose and mouth
 - Sanitize & Wash hands
 - Social distancing
 - No closed and/or crowded places with non infected people
- Clean all surfaces that are touched often with sanitising or prescribed cleaning liquid by following all safety instructions
- Cover your mouth and nose with a tissue when you cough or sneeze. Discard appropriately after one time use. Wash hands with soap and water or standard quality alcohol-based hand sanitizer

DON'TS:

- Avoid sharing personal items with other people in the household, such as dishes, towels, bedding, food, toiletries, etc.
- Do not self-prescribe steroids, injections etc.
- Do not go to public places such as office, school, theatre, restaurant, etc
- Avoid public transportation, ride-sharing, or taxis
- Do not leave your home, except to get medical care(if necessary only)

15. Other Remarks :

5.2 BBMP Hospital Bed Availability Live Updated Link :

<https://bbmpgov.com/chbms/>

...

SRF ID is a 13 digit no. given to every person who takes up RAT Test or RT-PCR Test. The SRF ID comes to the registered mobile no. of the person after sample is collected and is also printed in the Test Report

BU (Bengaluru Urban) Number is a 6 digit unique number generated by BBMP.

It is generated only for patients who test positive for COVID19. BU number is generated by Govt/Private testing centre after uploading your Covid Test Report on ICMR Portal. Please Ensure this is done

Generally BU number comes as an SMS. However, if you do not get BU number by SMS, click on this link to get your BU number -

<https://www.covidwar.karnataka.gov.in/service1>

If you do not have BU Number and urgently need a Bed.

Call 1912 or 108. You may have to wait for long, have patience thousands of patients are looking for beds.

By the time Bed is allotted, ensure you get your BU number

If you have SRF ID & BU Number Ready, Call BBMP War Room. Call these nos. and request for a Bed by providing all the details

To Know which zone you belong to

<https://bbmp.gov.in/zonalclassification.html>

9. SELF CARE AND IMMUNITY

Ministry of AYUSH recommends the following self-care guidelines for preventive health measures and boosting immunity with special reference to respiratory health. These are supported by Ayurvedic literature and scientific publications

Refer the below PDF for Self Care and Immunity

[Click Here](#)

- Rest and Sleep for at least 7-8 hours
- Drink Plenty of Fluids and at least 1 ½ litres of Warm Water per day
- All food should be consumed Hot
- Sit in the Sun for 15-20 minutes Everyday
- Steam Inhalation:
 - If you stay at Home -> Once a day
 - If you go to the Market -> Twice a day
 - If you go to Office/Meet People -> Thrice a day
- Ajwain steam can ease irritation in nose and help break mucus
- Drink Home made Kashaya
- Consume Lemon in your food or Lemon juice twice daily
- Onion and garlic anti inflammatory, also rich in sulphur compound
- Consume cruciferous vegetables like cauliflower, cabbage, broccoli, kale and radish which are anti inflammatory too

...

SELF CARE AND IMMUNITY

IMPROVING IMMUNITY

The holistic approach of **AYUSH systems of medicine (Ministry of AYUSH)** gives focus on prevention through lifestyle modification, dietary management, prophylactic interventions for improving the immunity and simple remedies based on presentations of the symptoms

Refer the below PDF for Improving Immunity

[Click Here](#)

PRONING FOR SELF CARE

Proning is a medically accepted position, by the **Ministry of Health & Family Welfare** to improve breathing comfort and oxygenation. It is extremely beneficial in COVID-19 patients with compromised breathing comfort, especially during home isolation

Refer the below PDF for Steps on Proning

[Click Here](#)

POST COVID CARE

A holistic approach is required for follow up care and well-being of all post COVID recovering patients

Refer the below PDF for Post by Ministry of Health & Family Welfare

and **AMBULANCE** for Transportation

DEATH AT THE HOSPITAL

If the patient dies in the hospital, collect the death certificate from the hospital and call the BBMP helpline and get the ticket for cremation

DEATH AT HOME

If the patient dies at home, call a hospital near you and get the temporary death certificate. You can also ask them to arrange for a vehicle

Note: As of now, BBMP crematorium does not allow the body for cremation if the patient has died at home. Even if they do, the wait period is at least 1 day

Imp Note: In any case, Death Certificate is a must for cremation.

THANK YOU!
